Although the above mentioned is the current level of the turnover/income and is closely related to economic indicators, it may be more or less in future. Consequently, this certificate does not serve as a guarantee that the income reflected will continue at the same levels. Where the entity is a start-up enterprise this EME Certificate is valid for contract with a single value of less than or equal to R10m. Should the contract value being tendered for be higher than R10m and less than R50, the EME will be required to submit a QSE Verification Certificate with any tender. For contract over R50m a B-BBEE Verification Certificate based on the Generic Codes must be submitted.
